## **United States Politics and Government - The New York Times**

The Constitution divides power between the national (federal) government and state governments and makes the national government supreme within its sphere. The national government has implied as well as enumerated powers, as *McCulloch v. Maryland* made clear. Civil War also helped establish the preeminence of the national government, and over the years the Supreme Court has interpreted these powers - particularly Congress's interstate commerce power - broadly, as Washington has taken on more ...
