Quit any Office 2007 programs that you are running. In Windows Explorer, double-click the projecthelp-en-us.exe file that you saved to your hard disk. Double-click the extracted projecthelp.msp and then follow the instructions on the screen to install the files.

Download Updates for Microsoft Office Project 2007 Help ...
In Microsoft Office Project 2007, you can set deadlines for a task. Deadlines affect the calculation of late finish dates, the backward pass, and the total slack of a task. The deadline usually sets the late finish for a task and therefore affects the backward pass. The following cases describe the exceptions to this rule:

Show slack in your project in Project desktop - Project

How Calculated To calculate BCWS for a task, Microsoft Office Project adds the timephased baseline costs of the task up to the status date. Best Uses Add the BCWS field to a task sheet to review how much of the budget should have been spent on a task to date, according to the task's baseline cost.

BCWS (Planned Value or PV) fields - Project
In Microsoft Project 2010, 2013, and 2016, in the Format tab, in the Show/Hide section, check or uncheck the box next to Project Summary Task. In Microsoft Project 2007: On the Tools menu, click Options, and then click the View tab.

Show the project summary task in Project desktop - Project
Project has a wide range of field-based columns you can add to your view. To help you focus on specific details to manage your project, you can also hide any columns that are shown. Hiding a column doesn't delete any data from your project; it only removes the column from your view until you need it again.

Hide or unhide a column in a Project view in Project ...
