here will completely be in the midst of the best options to review.

As you'd expect, free ebooks from Amazon are only available in Kindle format - users of other ebook readers will need to convert the files - and you must be logged into your Amazon account to download them.

## **Mplus Code For Mediation Moderation**

Mplus code for mediation, moderation, and moderated mediation models. Introduction. This webpage contains links to Mplus code for testing different configurations of mediation, moderation and moderated-mediation models. For each model I have provided conceptual and statistical model diagrams, the model equations, and most relevantly, the Mplus code for the requisite DEFINE:, ANALYSIS:, MODEL:, and OUTPUT: principal commands, as well as a preceding USEVARIABLES: subcommand that lists my ...

## **How to conduct a multilevel moderated-mediation in Mplus?**

Simulation appendix and Supplementary Mplus code to accompany Preacher, Zhang, & Zyphur (2016) paper on multilevel moderation. Mediation (Indirect Effect) Material Online appendices A and B to accompany Deboeck & Preacher (2016) paper on continuous time mediation.

## **Kristopher J. Preacher: Mediation & Moderation**

Yes, it is possible. Bauer, Preacher, & Gil (2006, pp. 153-158) address this model. We have code in SAS, SPSS, and HLM for lower-level mediation models with the potential for moderation by level-2 predictors (see [quantpsy.org](http://quantpsy.org)), but it is also easy to do in Mplus. Here is Mplus code that yields the same output:

### **Mplus Discussion >> Moderated mediation two-level model**

I want to test a moderated mediation model with an unordered multicategorical moderator. The moderator is a race variable with 5 categories (White, Black, Asian, Hispanic, and Other). I created 4 dummy variables (White is the reference group), and then created interaction terms as the product of X and each dummy variable.

### **Mplus Discussion >> Interaction example**

Hi Witold, here is the Mplus syntax for several moderated mediation models, including a dichotomous moderator:
